VeTA Days, Upplands Väsby The sales team will be attending the conference, a recurring tradition aimed at veterinarians, veterinary nurses, animal care workers, and other professionals in animal healthcare

4-6 Nov2026

AVEF Metz, France. Romain Paillot is presenting at L'Association Vétérinaire Equine Française, an organisation that brings together more than 600 veterinarians who work exclusively or partly in equine medicine or surgery.

26-31 Oct2026

Jönköping Horse Show. The sales team represents Intervacc at the event, which is a central meeting place for equestrian sport where Swedish and international riders compete in both show jumping and dressage. In addition to sport, shows and exhibitions are organized with over 100 exhibitors.

22-23 Oct2026

Danish Veterinary Congress in Copenhagen, Denmark. Intervacc's sales team will attend DDD's annual meeting, which for two days brings together a large part of the Danish veterinary industry – from veterinarians and veterinary nurses to key professionals and decision-makers.

17 Oct2026

Course on Guttural Pouches and Strangles, Mälaren Hästklinik, Sigtuna. Agneta Gustafsson leads the training for veterinarians and veterinary nurses in guttural pouch endoscopy.

THE AGENDA

Activities in the calender

Sharing knowledge about strangles, biosecurity and preventive animal healthcare is an important part of Intervacc's work. By actively participating in events attended by veterinarians and investors, we aim to promote greater understanding and contribute to better animal health.

This section presents key upcoming and past events involving Intervacc – from trade fairs, meetings and training sessions to scientific conferences and investor events.

THE AGENDA

Upcoming activities

Raising awareness of strangles, infection control and preventive animal health is an important part of Intervacc's work. By participating in trade fairs, meetings, training courses, conferences and lectures, we aim to contribute to greater knowledge and improved animal health.

Here we present major scheduled activities in which Intervacc participates.

With the news briefs, we want to offer an insight into the business between the regulatory news and the quarterly reports – which reflect the people, research, collaborations and activities behind the development of new vaccines and sales.

NEWS BRIEFS

2026-11-07 | FROM MEETINGS AND EVENTS

New Strangvac data presented at IEVA26 today

New Strangvac data are being presented today at the Irish Equine Veterinary Association (IEVA) Congress in Kilkenny. Andrew Waller will present the findings in an oral presentation as part of the congress’s scientific programme.

The presentation is an important opportunity to share the latest Strangvac research with equine veterinarians and contribute to the scientific dialogue on the prevention of strangles.

INTERVACC

Thank you for the great meetings at Jönköping Horse Show!

Intervacc was at Jönköping Horse Show together with Dunstan. We had the opportunity to meet many engaged members of the equestrian community and talk about equine health, infection control and disease prevention.

A big thank you to everyone who stopped by to meet us!
