Intervacc has presented results from clinical trials at WEAS 2017

The WEAS (World Equine Airway Symposium) is a regularly recurring international scientific meeting on diseases of the horse's airways.

At WEAS 2017 in Copenhagen in July 2017, Intervacc CEO Jan-Ingmar Flock presented data from the clinical trials conducted with Strangvac®. This has given further spread and knowledge about Strangvac® to a very important target group, horse veterinarians specialized in strangles
