# Intervacc’s distribution partner Dechra launches Strangvac in Finland

Intervacc AB (publ) announces today that its distribution partner, Dechra Pharmaceuticals PLC ("Dechra"), will launch Strangvac® in Finland and vaccine vials are expected to be available for delivery shortly. This launch is the result of an extended collaboration between Intervacc and Dechra, where Dechra now has the right to sell Strangvac® in Finland. This is a natural development given Dechra's long-standing presence and strong organization in Finland.

“*Dechra has a long and successful history in Finland, and it was a natural step for us to give Dechra the opportunity to sell Strangvac® in Finland. We look forward to reaching more veterinarians and horse owners with our vaccine Strangvac®,*” says Jonas Sohlman, CEO of Intervacc.

"*We are excited to add this innovative vaccine to our existing broad equine product range and believe this can become a game changer in the approach to strangles*" says Marie Jakobsen, Equine Product Manager at Dechra Nordics.
